Estes Park Junior Golf Program

Our mission is to provide golf programs that are safe, affordable, and enjoyable to children ages 6 to 17, and to deliver these programs with a high level of professionalism and expertise.

Golf can be an expensive activity for young families. The Estes Park Junior Golf Program provides funds for students to receive professional teaching, season passes to both golf Estes Park golf courses, and will cover entry fees for competitive tournaments.

Through these programs, our goal is to provide the participants with updated and safe equipment. We provide this equipment free of charge with the hopes of getting the equipment returned when the children have finished using it or have outgrown it. It is also our hope that golf will be a vehicle for the future development of important life skills which include:

- Self-discipline
- Self Esteem
- Solid Character
- Proper Etiquette
- Sound Values
- Positive Relationships
- Good Sportsmanship

Our goal is to grow the game of golf while introducing and sharing all the benefits of its nature with young people starting their journey through life.
